DETAILED ACTION

Claims 1-11, and 14-16 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 13.

Applicant's election with traverse of invention V in Paper No. 13 is acknowledged. The traversal is on the ground(s) that the inventions are not entirely independent and distinct. This is not found persuasive because applicant has admitted that the inventions are separately useable. The subcombinations are considered to be distinct from each other if they are shown to be separately useable.

The requirement is still deemed proper and is therefore made FINAL.

This application is in condition for allowance except for the presence of claims 1-11 and 14-16 to an invention non-elected with traverse in Paper No. 13. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Art Unit: 3747

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the claimed invention as a whole including the AC component of the power regulators being phase locked with a selected module acting as the master module and selected others of the modules acting as slave modules, in the context of a hydrogen generating system for use in an internal combustion engine of a vehicle comprising a plurality of modules, each module containing an electrolysis cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
